

# WIR SEHEN UNS AM FEUER!

## DEVELOPMENT ENGINEER (m/f/d)

Do you like to delve deep into a scientific topic and invent things? Do you challenge the status quo and are you constantly looking for different and better ideas?  
Are you driven by a problem that seems unsolvable at first glance?

If you're nodding your head, then this could be the job for you.

höfats is a young design company based in the Allgäu region of Germany that develops fascinating products around the theme of fire. Researching and inventing the perfect flame is what drives us. In order to become even better at this, we are looking for a

**Development Engineer (m/f/d) with knowledge and experience in product development.**

**Your job is to invent new products and bring them to market. This includes the following responsibilities**

- Complete product realisation from concept to prototype to series production
- Design and build prototypes and test them. Continue to develop the prototype until it is ready for production.
- Series implementation in close collaboration with manufacturing partners
- Benchmarking and competitive analysis
- Compliance with applicable standards and other regulatory requirements for new developments
- Development, implementation, documentation and evaluation of appropriate test methods/product tests for new developments.
- Definition of quality standards for series production. Preparation of necessary documentation for manufacturing partners
- Support the development and maintenance of intellectual property rights - Communication with external partners

### **Your profile**

- You have successfully completed your studies, ideally as an engineer, or have completed an apprenticeship, preferably with further training as a mechanical engineer.

- You have experience in product development and manufacturing technology, preferably in the consumer goods sector with high demands on functionality, design and quality.
- Ideally, you have already designed with SOLIDWORKS or similar CAD software.
- You are just as enthusiastic about innovative product ideas as we are, and can take them through to series production in an independent and targeted manner.
- You thrive on creative ideas, innovative approaches and unconventional solutions.
- You see product development as teamwork, but you also feel responsible for your own tasks and like to take the initiative.
- You have a good command of English, both spoken and written.
- You have a basic knowledge of German
- You are willing to travel 1-2 times a year to develop your product.

### **What can you look forward to at höfats?**

We are an open, motivated and welcoming team who put their heart and soul into keeping the höfats fire burning every day. To ensure that this is successful and that you feel comfortable, we have a tried and tested range of motivational boosters, including:

- A modern, accessible and beautiful riverfront loft office
- Company fitness, bike leasing and table football for physical exercise
- Regular grill & fire sessions, refreshing drinks in the fridge and a high-tech barista coffee machine with the world's best coffee
- Employee discounts on höfats products for you, your family and friends as well as monthly changing offers from Corporate Benefits
- Dedicated parking at the office and in the car park
- Flexible working hours

### **Are you on fire?**

Being part of the höfats family means shaping the future of our company and your own future at the same time. We hire talented people who want to be more than just another personnel file. Let's grow together personally and professionally and become the best team in the world.

Show us what you can do and send your detailed application to [jobs@hofats.com](mailto:jobs@hofats.com). Melanie Wagegg (0831 989094-681) will be your first contact.

### **See you around the fire!**
